SSRS Core Documentation

Text Clipping:

CLIPPING TEST: This is a very long text that

^ Text clipping test (text should NOT overflow the red box)

TEXT WRAPPING TEST

Generated with SSRS Core on Linux

This is a demonstration of proper text wrapping behavior. Unlike the clipping test above, this textbox has CanGrow set to true, which means the text will wrap to multiple lines and the textbox will automatically expand to accommodate all content. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat. Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur. Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum. This text should wrap naturally without being cut off, demonstrating proper text rendering capabilities of SSRS Core.

^ Text wrapping test (CanGrow=true - text should wrap, NOT clip)

--- INTENTIONAL PAGE BREAK ---
This page break was inserted programmatically to demonstrate multi-page report support

TWO-COLUMN LAYOUT TEST

Enterprise Integration
Seamlessly integrate with your existing enterprise systems. Support for SQL Server, Oracle, and cloud databases. Full API compatibility ensures smooth migration.

Multi-Format Export
Export to PDF, Excel, Word, HTML, PNG, JPEG and WebP. High-quality output with configurable DPI settings for print and digital delivery.

Cloud Deployment
Deploy to any cloud platform including AWS, Azure, and Google Cloud. Container-ready with Docker and Kubernetes support for modern DevOps workflows.

Cross-Platform
Run on Windows, Linux, and macOS. No GDI+ dependency means true cross-platform compatibility with consistent rendering across all systems.

Performance Tuning
Optimized rendering engine delivers fast report generation. Memory-efficient processing handles large datasets without performance degradation.

RDLC Compatible
Use your existing RDLC reports without modification. Full compatibility with Visual Studio Report Designer ensures seamless migration of legacy reports.

Why Choose SSRS Core?

SSRS Core brings the power of Microsoft SQL Server Reporting Services to modern .NET applications. Whether you're migrating from .NET Framework or building new cross-platform solutions, SSRS Core provides a reliable, high-performance reporting engine.

Key Benefits:

- No Windows dependency - runs on Linux, macOS, and containers
- Full RDLC compatibility - no report redesign needed
- Rich visualizations - charts, gauges, maps, and images
- Enterprise-ready - scalable for high-volume workloads
- Active development - regular updates and improvements

Rendering Capabilities Showcase

Borders · Polygon fills · Background images · Font embedding

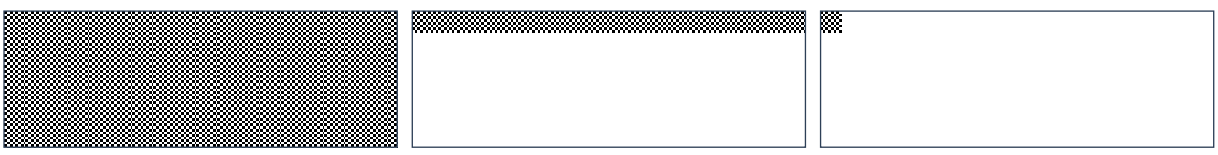

BORDER STYLES — Solid · Dashed · Dotted · Double

Solid | Dashed | Dotted | Double

POLYGON FILL — Mitered corners on multi-color borders

BACKGROUND IMAGES — Repeat · RepeatX · Clip

Repeat | *RepeatX* | *Clip*

Repeat *RepeatX* *Clip*

FONT EMBEDDING — TrueType subsets embedded automatically in PDFs

Arial · **Arial Bold** · *Arial Italic* · Times New Roman · `Courier New 0123456789`

MULTI-SERIES CHART — Two parallel data series, side-by-side per category
